

The Assignment

Caskey

Folks still tryna fuck the alignment
My lifestyle understood the assignment
Big pressure that I made into diamonds
Look what I made from a fucked up environment
Goin' backwards, I can't get behind it
This that and you know where to find it
My lifestyle understood the assignment
Look what I made from a fucked up environment

M's gettin' made off the sonics
Used to make them off the chronic
When you up this much, can't be modest
Run this if I'm just bein' honest
M's gettin' made off the sonics
Used to make them off the chronic
When you up this much, can't be modest
Run this if I'm—

People bet against me, bet they hate that now
Creatine pockets like I'm eight packed down
Prayin' on my downfall, you lookin' at a apex predator
I could never eat, I'm still eight steps ahead of ya
People tend to hate on, what they gave up on
Y'all mixtapes what I break up on
Bed full of hunnids what I wake up on
And you bitch-made, go and put the makeup, on
C8, baby, this no Camaro
Good fella 'bout them Robert dineros
Gold chains, might mistake me for pharaohs
The smell of weakness is not in my pheromones
Bare bones, I'm on top like the hair combs
If it's not 'bout the money, don't you dare phone
This my spot, baby, not a shared throne
Best thing for you to do is just carry on
