

## Work Freestyle

Caskey

Yeah, know yourself, know your worth  
Need to focus on your craft, y'all too focused on the percs  
I'm in love with the hustle, shout out Lil Uzi Vert  
Thugger Thugger, Lil Durk, every rapper who inspire me to work  
Work, I work like I'm Weezy in '09  
Cash Money Records did it again, they found 'em a goldmine  
Old heads saying every time I spit remind 'em of old times  
Back when rappers really had something to say, they was pitchin  
g the cold lines  
I promise I won't stop, I turn my hotel to a smoke shop  
Third grade, I was in the backseat of my older sister [?] drive  
How I learn how to hustle, I guess I got it from my pops  
Posted up in the trap, the Florida Mall ain't the only place to  
shop

Yeah, know yourself, know your worth  
Posted up in the vert, I had to get it out the dirt  
Yeah, I figured out nothing come easy, to get it is work  
Yeah, don't nothing come easy, to get it is work

I put my town on the map  
I just exceeded the cap, I'm running circles and lap  
Y'all spending way too much time on your cell phones, working a  
ll of your apps  
And you ain't busy hustling and making multiple traps  
[?] Rollie, this isn't tithes, but it's holy  
How many times I was there ignorin' the signs I was praying God  
to show me?  
How many times I was at a hotel when a groupie said she know me  
?  
How she ain't like the girl she roll with? How she ain't got no  
other motives?  
How she'll turn into something she would never be? That was fal  
se promotion  
Yeah, she saw a future with me, I left the altar wide open  
You should've caught my other notions, my jewelry closet like a  
ocean  
This a zone we could coast in, I'm the only one chosen

Know yourself, know your worth  
Posted up in the vert, I had to get it out the dirt  
Yeah, I figured out nothing come easy, to get it is work  
Yeah, don't nothing come easy, to get it is work

To get it is work, work, work, oh  
To get it is work, yeah
