

Keep it on me like wild wild west
Got the confidence, Kanye West
Fuck you if you ain't with us
Guarantee my money bigger
Left all my haters bitter

'cause I'm too far gone, can't catch up
I'm smokin' on strong, nothin' lesser
I'm all the way gone, in the Tesla
I'm never comin' home (Yeah, yeah, ayy), might stress 'em

Everything not good for the kid, gettin' detoxed
On the plane, backpack full of treetops
Y'all epitomize every lil thing we not
I gotta talk my bullshit while the tea hot
I'm just a marlin, smokin' the carton
I'm just a fresh prince, I ain't like Carlton
Car so bizarre, they thought I was a martian
I ain't human though, so proceed with caution
Came out the starship, and some hardship
Lost my dad too, now I'm bossin'
Sell tick' and get lit, it's Boston
Most people won't get rich, it's exhaustin'

Keep it on me like wild wild west
Got the confidence, Kanye West
Fuck you if you ain't with us
Guarantee my money bigger
Left all my haters bitter
