

# You Can Do Anything

Caskey

Mixin' the drugs together  
This life that I live, I think I want it forever  
I give the shirt off my back to my people  
You need somethin' from me, you know it's whatever  
Pride is a bitch  
And that bitch got nothin' for me, I had to forget her  
I had to get rich  
Looked at my life, like, "Damn it, I gotta do better"

Take it from me, take it from me  
You can do anything you really want, what you wanna be?  
People ask me why I left out the city, there's so much to see  
You gotta get outta your own way, so you really free

Okay, my own mind tried to fill me with doubts  
Thoughts that I'd rather be livin' without  
You are your own worst critic  
And you know that critics criticize what they ain't about  
Diamonds inside of the cave of my mind  
I got my hands dirty, I'm diggin' 'em out  
I don't even care to dream when I sleep  
The dreamers the ones who are livin' 'em out  
Shout out my bro 'cause the city we grew up in  
Ain't wanna see two of us win  
I chose the dream and you settled into a job  
But I could still call you my twin  
It's never too late to look at your life  
And realize that you wanna do it again  
You just gotta get up and do it, my friend  
It's only the end when you say it's the end  
And I'm just gettin' started  
Even though I gotta do it without all my dearly departed  
I'll still be the martyr  
Killin' myself for the dreams in the waters that you couldn't charter  
I cut off the loose ends  
Maybe that's why I relate and I vent to my barber  
It's hard, but we know that it's gettin' harder  
God only give me the ship I could harber  
Settin' the sails, my mind in a jail  
The devil is in the details  
Know I am the truth  
They sleep on me now, but in time know I'll be reveled  
Spendin' my time in the garden  
I'm plantin' the seeds, the dirt on my nails  
As long as you pour out your heart in the bales  
No matter the outcome, you never could fail

Mixin' the drugs together  
This life that I live, I think I want it forever  
I give the shirt off my back to my people  
You need somethin' from me, you know it's whatever  
Pride is a bitch  
And that bitch got nothin' for me, I had to forget her  
I had to get rich  
Looked at my life, like, "Damn it, I gotta do better"

Take it from me, take it from me

You can do anything you really want, what you wanna be?  
People ask me why I left out the city, there's so much to see  
You gotta get outta your own way, so you really free

(Take it from me) Oh, oh, oh, oh, oh  
(Take it from me) Oh, oh, oh, oh, oh  
(Take it from me) Oh, oh, oh, oh, oh  
(Take it from me) Oh, oh, oh, oh, oh
