

Old as Angry

Cass McCombs

Let me skate beneath your mind
Let you know the reason how
Old as angry

Folk is future
So we're hanging on by a thread just to share a little fire
I say old as angry

We've been here forever and we'll always be here
And that's not going to change whether we like it or not
I say old as angry

Are you angry with me?
Since the serpent and we were once one
Old as angry

Our dreams and demons are all the same
Whether you believe in the cops or a hollow Earth
I say old as angry

Pick 'em up and knock 'em down
Like chess pieces through eyes of an unbruised child
I say old as angry
