

# You Saved My Life

Cass McCombs

In this spare room  
we better see what we have and whom  
An I.O.U. for the Same Thing  
Only angels have wings, so they say

Here I stand, alive unto you

My fate's mercy seat  
sought blood to gulp and flesh to eat  
And I can't blame you enough  
but I'm indepted to your mercy and your love

Here I stand, alive unto  
alive unto you  
because you saved my life  
Now I see there's so much to lose  
so much to lose  
because you saved my life

Darling, now I  
must live for you  
One reprieve grants another  
until each world is born anew

Never understand, never can ignore  
I'm rotten to the core, since 1994
