

## Almost There

Cassadee Pope

You don't miss a beat  
We don't have to speak  
I might be in a bad mood but you  
Won't let me go to sleep  
Til we're back to you and me  
Somehow you know exactly what to do  
You're turning on the lights and  
That song I said I like  
You always treat me right

Who says love was meant to be so innocent?  
I love misbehaving  
Bad things are fun when we're naked  
Pull my hair to show you care  
I'm almost there

Maybe I'm a freak  
Someone you should keep  
Tied up to the bed frame let's play  
I like to draw outside the lines  
Why the hell would I want that average  
When I got wish you could have this magic

Who says love was meant to be so innocent?  
I love misbehaving  
Bad things are fun when we're naked  
So taboo that's old news  
I'm never not gunna want you  
To pull my hair to show you care  
I'm almost there

Its so nice  
In this twisted paradise

Who says love was meant to be so innocent?  
I love misbehaving  
Bad things are fun when we're naked  
So taboo that's old news  
I'm never not gunna want you  
To pull my hair to show you care  
I'll tell you when I'm there
