

Break Too

Cassadee Pope

Who said it first
Where did it happen
Who made it worse
Our friends are askin
Like it matters how it went down who stayed who walked out
Like a goodbye could even pick sides

Just cause you make em cry that don't mean that you don't cry t
oo
Just cause you let em go that don't mean you ain't goin through
All the pain of the change cause it'll never be the same
Just cause you break a heart doesnt mean your heart don't break
too

We're both losin sleep
There aint an easy way around this
Ain't movin on
Too messed up to think about it
But If you need a bad guy, guess I'll be the bad guy but

Just cause you make em cry that don't mean that you don't cry t
oo
Just cause you let em go that don't mean you ain't goin through
All the pain of the change cause it'll never be the same
Just cause you break a heart doesnt mean your heart don't break
too

Just cause you make em cry that don't mean that you don't cry t
oo
Just cause I let ya go that don't mean I ain't goin through
All the pain of the change cause it'll never be the same
Just cause you break a heart doesnt mean your heart don't break
too
