

# Bring Me Down Town

Cassadee Pope

I used to get dressed up for ya  
You were the center of my plans  
I had nothin' but love for ya  
And your Friday nights made me dance  
Thought you had my back, I was wrong  
Everything's changed since he's been gone

Now you're just a bring me down town  
I can't even drive around  
You used to be my favorite place  
Now you're another one I see his face  
And I hate how I can't even go out  
I need someone new to do my drinkin'  
'Cause you ain't nothin' but a bring me down town  
Bring me down town  
Why you gotta bring me down town?

I used to see your neon Main Street  
But now I see a dead end road  
Nothin' for me now, it's hard to believe  
I used to call your home and

Now you're just a bring me down town

I can't even drive around  
You used to be my favorite place  
Now you're another one I see his face  
And I hate how I can't even go out  
I need someone new to do my drinkin'  
'Cause you ain't nothin' but a bring me down town  
Why you gotta bring me down town?

Ain't nothin' I did or didn't do  
It's not me it's you

Now you're just a bring me down town  
I can't even drive around  
You used to be my favorite place  
Now you're another one I see his face  
And I hate how I can't even go out (I can't even go out)  
I need someone new to do my drinkin'  
'Cause you ain't nothin' but a bring me down town  
Bring me down town  
Why you gotta bring down, down, down, down town
