

# California Dreaming

Cassadee Pope

I've been Texas-talking to myself at night  
I've been Florida-fallin' since I met you in '09  
I've been Arizona-angry over every word we said  
And Tennessee-whiskey-wishin I could take it back

I've been flyin' and cryin'  
Tryna leave you where I've been  
But the cracks in my heart  
Always let you back in  
Keep tryin' to lose you in the Hollywood Hills  
But I'm California dreaming still  
And I always will

I'm Wisconsin-wondering what you're doin' right now  
I've been Rocky Mountain high tryna put you down  
Put an ocean in between us, but it still don't work  
I guess there ain't no drownin' out a California-hurt

I've been flyin' and cryin'  
Tryna leave you where I've been  
But the cracks in my heart  
Always let you back in  
Keep tryin' to lose you in the Hollywood Hills  
But I'm California dreaming still  
And I always will

I'm Mulholland-drivin' with you sittin' shotgun  
Santa Monica kissin' in the sinkin' sun  
This Nashville night is where I should be  
But my soul keeps searching for my California dream

I've been flyin' and cryin'  
Tryna leave you where I've been  
But the cracks in my heart  
Always let you back in  
Keep tryin' to lose you in the Hollywood Hills  
But I'm California dreaming still  
And I always will  
I always will
