

Counting on the Weather

Cassadee Pope

Candles lightin' up your face
Dancin' by the fireplace
Record spinnin' round and round
Lightning through the window
Your head on the pillow
Midnight's slowin' us down
All I can think with your hands on my hips
The taste of your drink when you're kissin' my lips is
Don't ever wanna stop
Don't wanna watch the clock
Let's keep it goin' goin'

I kinda hope the clouds roll in
Rain slippin' through the window screen
I kinda hope the thunder comes and keeps us up
So we can't sleep
Cause layin' here tangled up in these sheets
Is sweeter than anything I could dream
Don't wanna shut my eyes
Wanna stay up all night together
I'm countin' on the weather
I'm countin' on the weather

It'll be so worth it
Even if the mornin'
Sun's burnin' in our eyes
We'll just close the curtains
Forget any work and
Later we'll apologize
Let's drink up this moment with all that we've got
Pretend that it's stormin' even if it's not
Don't ever wanna stop
Don't wanna watch the clock
Let's keep it goin' goin'

I kinda hope the clouds roll in
Rain slippin' through the window screen
I kinda hope the thunder comes and keeps us up
So we can't sleep
Cause layin' here tangled up in these sheets
Is sweeter than anything I could dream
Don't wanna shut my eyes
Wanna stay up all night together
I'm countin' on the weather
I'm countin' on the weather

Let it fall let it pour
Gunna pray for more
Closer than we've ever been

I kinda hope the clouds roll in
Rain slippin' through the window screen
I kinda hope the thunder comes and keeps us up
So we can't sleep
Cause layin' here tangled up in these sheets
Is sweeter than anything I could dream
Don't wanna shut my eyes

Wanna stay up all night together
I'm countin' on the weather
I'm countin' on the weather
I'm countin' on the weather
