

I Died

Cassadee Pope

I get it, you don't wanna see me around
Turn your back when you see me out
Tell your friends I'm just a ghost
I knew you hated me but I didn't know
How bad you wanna erase me
I'm 6 six feet under baby

Like I died
You're burying my name
You're burning every trace of me you can't escape
You're plotting my demise
Til I'm a memory
That you would rather leave behind
It's like I died

RIP, ain't love but it's hate and it falls on me
The ship sailed, yeah, knew we couldn't stay on the boat
Went and blocked me out of your mind now you went ghost
Used to ride for me now you're just a stranger
Nothing can prepare you for the change up
I know your friends and your family probably can't stand me
You want me as far out of your life as I can be
Dead to you, you ain't even leave no flowers
Now I'm 6 feet deep under all this baggage
When I hit you up, hate that you don't text back
Don't ever fall in love it's a death trap

Like I died
You're burying my name
You're burning every trace of me you can't escape
You're plotting my demise
Til I'm a memory
That you would rather leave behind
It's like I died
It's like I died

Doing everything to never be near me
Shovel in your hand to bury me
I'm saying my Hail Mary's
Doing everything to never be near me
Shovel in your hand to bury me
Cause you wrote my obituary

Like I died
You're burying my name
You're burning every trace of me you can't escape
You're plotting my demise
Til I'm a memory
That you would rather leave behind
It's like I died
(Doing everything to never be near me
Shovel in your hand to bury me)
Yea, it's like I died
(Doing everything to never be near me
Shovel in your hand to bury me)
Oh, like I died
