

# People That I Love Leave

Cassadee Pope

I don't wanna say I love you  
Cause people that I love leave  
That's all that I've ever seen  
As soon as I hold on  
That's when it all goes wrong  
Cause people that I love leave

It's getting serious and seriously  
Makes me curious why you're here with me  
I point the finger and start questioning you  
It's like come on am I the best you can do?

Don't mean to be cruel. It's how I was taught.  
I came up different than you  
I know you're confused but it's not about you  
It's not something you did, it's just not something I do

I don't wanna say I love you  
Cause people that I love leave  
That's all that I've ever seen  
As soon as I hold on  
That's when it all goes wrong  
Cause people that I love leave  
They move on and forget about me  
That's how it'll always be  
As soon as I hold on  
That's when it all goes wrong  
Cause people that I love leave

I'm scared of jumping in the deep end  
Cause when I do I almost always drown  
You could be everything I'm needing  
I'm probably never gunna get to find out

So don't wait around  
For those three words to come out of my mouth  
I know you're confused but it's not about you  
It's not something you did, it's just not something I do

I don't wanna say I love you  
Cause people that I love leave  
That's all that I've ever seen  
As soon as I hold on  
That's when it all goes wrong  
Cause people that I love leave  
They move on and forget about me  
That's how it'll always be  
As soon as I hold on  
That's when it all goes wrong  
Cause people that I love leave

People that I love leave  
(I don't wanna say I love you)  
People that I love leave
