

Say it Again

Cassadee Pope

I'm just a product of my past life
I made friends with all my shadows
I know you met me at a bad time
I set the record for a new low

Anticipating and bracing myself for impact
And it's silly cause really I shouldn't think like that
Cause you make me feel like I can stop holding my breath

You say that I'm all you ever wanted for the millionth time
You say you like the way that I kiss you even when we fight
I own all my battle scars this fragile heart is yours
Proceed with caution
You say I won't scare you away, you're in it 'til the end
But could you say it again
Could you say it again

Sometimes I wonder what I'd be like
If I didn't fall for all the wrong guys
Back before I finally got it right
Good thing you never seem to mind

Cause you make me feel like I can fuckin' relax

You say that I'm all you ever wanted for the millionth time
You say you like the way that I kiss you even when we fight
I own all my battle scars this fragile heart is yours
Proceed with caution
You say I won't scare you away, you're in it 'til the end
But could you say it again
Could you say it again

Yeah yeah say that you love me, love me, you can't live without
me
One more time
Say that you love me, love me, thank god you found me
One more time

You say that I'm all you ever wanted for the millionth time
You say you like the way that I kiss you even when we fight
I own all my battle scars this fragile heart is yours
Proceed with caution
You say I won't scare you away, you're in it 'til the end
But could you say it again
Could you say it again
