

Secret

Cassadee Pope

It started kinda fun just us no we never told anyone
Street lights at midnight temptation sweet and dangerous
Got caught in a fire but you wouldn't let it burn brighter
Had me so damn convinced we were better off keepin' this quiet

Love in the shadows
It's a losing battle
Someone's always left in the cold
If no one ever sees it
What's there to believe in
Did it ever matter at all?
Knew just what to say
To make me feel safe
Thought I was your secret
Swore that you could keep it
Why'd you go and give me away?

Had it all planned kept it hushed down
We were something they were never gunna know about
But look at me now
Wondering how I'm the one who's left out

Love in the shadows
It's a losing battle
Someone's always left in the cold
If no one ever sees it
What's there to believe in
Did it ever matter at all?
Knew just what to say
To make me feel safe
Thought I was your secret
Swore that you could keep it
Why'd you go and give me away?

If you're so good at secrets
Why couldn't you keep it
We had an agreement
But you went off the deep end
If you're so good at secrets
Why couldn't you keep it
We had an agreement
But you went off the deep end

Love in the shadows
It's a losing battle
Someone's always left in the cold
If no one ever sees it
What's there to believe in
Did it ever matter at all?
Knew just what to say
To make me feel safe
Thought I was your secret
Swore that you could keep it
Why'd you go and give me away?

If you're so good at secrets
Why couldn't you keep it

We had an agreement
Why'd you have to give me away?
