

Sis

Cassadee Pope

We've been through a whole lot of hell
We couldn't choose the cards we were dealt
Our story's crazy
We've got a fucked-up family

Remember all the things we said
Laying in our old bunk beds
Said we'd stick together
Come whatever

Don't matter if you fall on your face
I'll catch you
Nothing's gonna shatter my faith in you, in you
When you need outta the rain and thunder
I promise you'll always be safe under my roof, ooh

I gotcha sis
I gotcha back bitch

I never judge your worst mistakes
And you never make me feel ashamed
Pandora's box
Is gonna stay locked

Don't matter if you fall on your face
I'll catch you
Nothing's gonna shatter my faith in you, in you
When you need outta the rain and thunder
I promise you'll always be safe under my roof, ooh

I gotcha sis

Anytime
Anywhere
Any day
I gotcha back bitch
In every way
Anytime
Anywhere
Any day
Gotcha back bitch

A bond that can't be broken
Words that can't be spoken
My door is always open
No matter what it is
No matter what it is

Don't matter if you fall on your face
I'll catch you
Nothing's gonna shatter my faith in you, in you
When you need outta the rain and thunder
I promise you'll always be safe under my roof, ooh

I gotcha sis

Anytime

Anywhere
Any day
I gotcha back bitch
In every way
Anytime
Anywhere
Any day
Gotcha back bitch

I gotcha sis
