

Thrive

Cassadee Pope

You were a bullet that I dodged
A sickness that I never caught
A building durning down
And I can see that now
Your way with words was pretty
'Til eventually they're ugly letters came on out
And I can hear it now

While you were killin me I got stronger
If I'da stayed one second longer

I never would've seen this side
Never hit this stride
If I stayed tied down to you
Guess I should probably thank you
Maybe raise a drink to
Everything I gained when I cut ya loose

No I didn't just survive
Boy without you now I thrive
I thrive
I thrive

Every little lie
And every tear you made me cry
I swear I should've drowned
Instead I swam on out
Every time you tore me down brick by brick
Made it easier to crash through that ceiling
And honestly I'm hitting me an all time high
Guess you got one thing right
'Cause

I never would've seen this side
Never hit this stride
If I stayed tied down to you
Guess I should probably thank you
Maybe raise a drink to
Everything I gained when I cut ya loose

No I didn't just survive
Boy without you now I thrive
I thrive
I thrive
I didn't just survive

I didn't just survive boy without you now I thrive
I more than more than more than made it out alive

I didn't just survive boy without you now I thrive
I more than more than more than made it out alive

I never would've seen this side
Never hit this stride
If I stayed tied down to you
Guess I should probably thank you
Maybe raise a drink to

Everything I gained when I cut ya loose

No I didn't just survive
Boy without you now I thrive
I thrive
I thrive
Didn't just survive

Didn't just survive boy without you now I thrive
I more than more than more than made it out alive
