

Used To

Cassadee Pope

You used to think that I would never win,
You said I'd lose before I could begin,
you tried to make me feel the same way,
To you I was just a song that no one plays.

Gotta think this so different now and I know that you don't like
the way it feels,
You find me [?] gotta shake it so
and I'll show you this time it's for real

You just can't believe this girl could be so lucky
Just can't believe my dream is coming true,
Now you'll tell we wanna bite how ya know me,
problem with you is that you
Used to...

You never thought I'd end up this way (yeah, you better stop thinking now)
For me things just keep goin' up everyday
It's too bad you never even heard what I say
I won't forget how you spread around the lies,
So here they are back in your days

I'll never letcha bring me down 'cause I knew someday I'd go far,
I know what you regret
All the things you said
Thus, look at me now

You Just can't believe this girl could be so lucky
Just can't believe my dream is coming true,
Now you'll tell we wanna bite how ya know me,
problem with you is that you
Used to...

You Just can't believe this girl could be so lucky
Just can't believe my dream is coming true,
Now you'll tell we wanna bite how ya know me,
problem with you is that you
Used to (Used to) Used to... used to... used to... used to
