## **Jump World**

## **Cassandra Wilson**

we come from a place on the planet where crystal create subatomic sound the mother lode is raw with the rhythym, rhythym quantum music goes up and down on jump world, jump world

psychomusicians gather together to sing their songs on the square why don't you come to jump world? you can beam here from anywhere

why don't you jump to jump world? phase jump into an other reality phase jump into an other reality

let's go, we don't have much time
but I'mma take you in this rhyme
to a place where you can live in bliss
with a groove that moves like this
cause it's time we had our own
king with a kingdom and his throne
now jump world is that place I'm talking about

yo wes, we gotta check it out we been dreaming for far too long and someone else has been singing our song that ain't right, it's got to be wrong and that ain't where we belong

so our leader led us into a better place so we could get away from the face of danger and now we're free we can be what we want to be since we jumped into reality jump world has set us free this joint is jumping, the bass is thumping jump into jump world, jump jump into jump world

we come from a place on the planet where crystal create subatomic sound the mother load is raw with the rhythym, rhythym quantum music goes up and down on jump world, jump world

move your funky feet to the funky beat
the rhythym ain't hard to keep
if you got soul let it take control
and jump world as good as gold
a little rhythym a little rhyme
will take you there each and every time
what's mine is yours and what's your is mine
cause we live in harmony
and we all are family
if you want to be free
you better come on and jump with me
