So wrap your lovin around me
And you know there's no other place I'd rather be
Than with you
With you oo o

Oh!
Your the one I need by my side
I know I'm young, but here boy take my life
Your all I ever need here in my arms
My summer charm

My summer

There's not a day that goes by
That I don't dream about us
For every star in the sky
I get a kiss and a hug

Boy wrap your lovin around me
And you know there's no other place I'd rather be
Than with you
In the middle of june oo

Oo o oh!
Your the one I need by my side
I know I'm young, but here boy take my life
July through august yes you're still in my arms
My summer charm

And wonder what happend between me and you
Cus this just ain't some summer fling, it's summer thing
Boy I'm tellin you

So don't you break my heart

Then say you'll be my baby

Baby girl I'll be your baby
