

# Rock Number One

Cassius

Just look!  
How many risks you're running for  
Life is just like a dream  
I said oh look!  
You don't have to score no more  
I thought we could be a team  
Just Look!  
If i did hesitate some times  
Now we're moving in time  
I said oh look  
But i needn't change my mind  
E-ter-ni-ty on your shoulder

Think you on my side  
Be my number one  
Could do everything  
I'll show you how  
Now you wonder  
Rock'n'roll the dice  
It could be anyone  
You or another

I said just look  
Now realize  
Feel outside  
I said, Oh Look!  
Open your eyes  
I feel good inside

I said just look  
Now realize  
Feel outside  
I said, Oh Look Man  
Open your eyes  
I feel good on the inside

Just Look!  
You keep pushing my love so far  
Oh please come closer  
I said, Oh Look!  
Blazing like a shooting star  
Now more than ever

Just Look!  
You make me feel so beautiful  
Still be my protector  
I said, Oh Look!  
I never asked to catch the moon  
E-ter-ni-ty on your shoulder

Think you on my side  
Be my number one  
Could do everything  
I show you how  
Now you wonder  
Rock'n'roll the dice  
If could be anyone

You or another  
Now realize  
Open your eyes

Think you on my side  
Be my number one  
Are you qualified?  
I'm sure you are  
And if I ever  
Ride'n'roll the dice  
It won't be anyone  
You and no other

I said oh just look  
Now realize  
Feel outside  
I said, Oh Look!  
Open your eyes  
I feel good inside

I said oh just look  
Now realize  
Feel outside  
I said, Oh Look Man  
Open your eyes  
I feel good on the inside

I said oh just look  
Now realize  
Feel outside  
I said, Oh Look!  
Open your eyes  
I feel good inside
