

# Thoughts

Cassper Nyovest

I keep on pacing up and down the room  
And I keep looking at this fucking rope  
My momma text me saying see you soon  
But will I make it I don't know  
I don't wanna die but I also don't wanna hurt  
I found a pot of gold but still feel like I need to search (word)  
Success ain't everything that I assumed  
Cause I feel lonely in these crowded rooms  
I can't even tell if it's plastic or real  
The love me but I feel inadequate still  
I mean I try to stay focused and ignore it but the pressure will build  
Would be ashamed if I don't setup my kids  
I mean I'm booming right now but how long is my reign gone last  
Feel like I'm one wrong step away from becoming the same old cass  
I don't wanna go back, wanna move forward but I don't have all the energy  
Especially when friends is busy siding with enemies  
Thought you knew better than all these made up analogies  
How could I be happy with everybody is mad at me  
You can tell I'm lonely by all these memes in my gallery  
Busy burning bridges when I should be burning calories  
Wishing that we all came with rechargeable batteries  
Wanna end it all but I gadda think of my family (fuck)  
So now I'm forced to smile with nighas like scoop  
Who don't love me like they said that they do  
I can see it in the way that they move  
Nighas do you false and say they living they truth

Oh you're gonna miss me when I'm gone  
They only love you when you're gone

Who got receipts for what a pray do  
Yo let me forward that, let me know that I'm unbreakable  
Uh yo sync folder, let me know how much it ate at you  
Uh come see my plate and all the shit they made me cater to  
It ain't no space for you cause I done been confined to it  
Ain't nothing perfect like my vessel if I fine tune it  
Man I been thirsty than a bitch been tryna find fluid  
I got a waterfall to find out that it's diluted  
I see the sun inside my son so I been super shaded but illuminated  
Can't do the cell so I went super saiyan  
My neo soul can make it through the matrix  
Woah woah, clear through my basement I been fumigating  
This shit for me bugging uh  
I'm still a slave I got a noose inside my stomach uh  
My free shackles turn to jury for the function uh  
My self destruction look like sumn sumn sumn uh

And I fear God but tell the devil he should run it up  
Your inner beauty never paid you truth is ugly huh?  
I'm so confused I see the darkness when the sun is up  
Yo tell the truth, when we meet up you just see money huh  
It's been a minute since I felt in love  
Been soul searching I been meaning to tell  
Was unavailable needed my help  
See I convinced the whole damn world to believe me bro  
When I don't even believe in myself  
I'm not as honest as you think I am

I'm just as filtered as your Instagram  
I mean I'm really me but with a bit of trickery  
I don't trust a soul I'm like Mr Bean shhh  
My spirit is the reason people look up sorta like listerine  
Scratch beneath the surface no matter how I word  
Could never tell the truth to my fans they think I'm perfect  
I know I'm real and I know I'm fake  
Don't know many fate but I know my faith  
Trying to control my pace  
Believe in God and the pearly gates  
So if I die I hope my soul you take  
I know that heaven is a stretch but I'm hoping that you'll hold my place  
I know I'll make it though I made mistakes  
Father protect me  
When I walk through the shadow of the valley of death  
With no fear of the darkness though I'm hearing the threat  
When I walk through the shadow of the valley of death  
With no fear of the darkness say that shit with my chest
