

Behind Closed Doors

Cassyyette

It's a system error that I can't compute
Wrap my head round selling my whole heart to you
We're up all night talking and confessing our feelings
I try to forget, but when I wake, can still feel it
Are we liquid lucky or we just confused
You said what you said
Loose lips aren't so concerning
Cause we did what we did

In my bed and it's so misleading
Behind closed doors, behind your eyes
I saw something and I can't unsee it
Now I lie awake at night
We can't hide it but we can't reveal it

Oh, I'm sinking into your mind
I can't replace or keep it inside
Behind closed doors, behind your eyes
But we just don't talk about it

This is sensitive information
But I'm running out of patience with you
I can't stand the hesitation
And when we're sober you just forget
The truth
Now it's getting complicated
Guess I underestimated you
Something so fresh I can taste it
Buy me a back and a leave a heart shaped bruise
Oh la-la-la
La-la-la-la-la

And it's so misleading
Behind closed doors
Behind your eyes
I saw something and I can't unsee it
Now I lie awake at night
We can't hide it but we can't reveal it

Oh, I'm sinking into your mind
I can't replace or keep it inside
Behind closed doors, behind your eyes
But we just don't talk about it

Not gonna waste my time
Cause I really like you, babe
I was thinking about you
Warm in your sweat till I faint
I'm your best fucking mistake
I'm ready
I'm ready
No, I won't regret it
Are you ready? You ready?
So fucking pathetic
You get me? You get me?
Don't know where we're headed
So lead me to heaven, take me to your God

You said what you said
Loose lips aren't so concealing
Cause we did what we did
In my bed

And it's so misleading
Oh, I'm sinking into your mind
I can't replace or keep it inside
Behind closed doors, behind your eyes
But we just don't talk about it
