

Go!

Cassyette

Let's go

Don't run your mouth
No time for the mean machine
Inside and out
I just wanna make a scene

Going light speed
I'm sending out a red alert
No messing with me
Baby I'm a champion

Let's go, get ready for it
I wanna go go faster, go go get it
Go, get ready for it
Been losing control, go faster, let's go get it
Ooh, I already know you know
I'm coming for it
Ooh, I'll take control, go faster
Go go go

Can't take it, get out
Don't sink into the quicksand
All talk, no hands
So if you want it make a stand

Going light speed
I'm sending out a red alert
No messing with me
Baby I'm a champion

No time for talking
Don't wait for no one
So if you're walking
You better run
No time for talking
Don't wait for no one
So if you're walking
You better run

You better run
You better run

Let's go, get ready for it
I wanna go go faster, go go get it
Go, get ready for it
Been losing control, go faster, let's go get it
Ooh, I already know you know
I'm coming for it
Ooh, I'll take control, go faster
Go go go

Let's go
Let's go
Let's
