

# When She Told Me

Cassette

I went upside down  
The birds flew away  
And the oceans emptied out  
And the skies turned gray  
And the ground split open  
I tumbled down into a cavern

I can't cry anymore  
And I can't catch my breath  
There's no oxygen out here  
I was altered when she told me  
Never been good since she told me

The world stopped spinning round  
I'm still spinning out  
You talk but I hear no sound  
My life is upside down

My eyes flip round  
Now I'm upside down  
The pressure mounts  
Now I'm upside down

There's a crow rap rapping at the door  
And if he's not looking for me  
Then he's looking for you

I can't cry anymore  
And I can't catch my breath  
There's no oxygen out here  
I can't cry, cry

Altered when she told me  
Never been good since she told me  
We were altered when she told me  
Never been good since she told me

My eyes flip round  
Now I'm upside down  
The pressure mounts  
Now I'm upside down
