

# All Bright

## Cast

She's allight  
She's all bright  
She opens her eyes  
And the stars shine above  
She falls to the Earth  
And the Earth falls in love  
She opens the door and  
I just walk through  
She opens the door and  
I just walk through  
It's out of my hands  
But what can I do  
It's out of my hands  
But what can I do  
What can I do  
She's on fire  
Burning higher  
She opens her arms  
And surrounds me in love  
She speaks to the world  
But she's misunderstood  
She opens the door and  
I just walk through  
She opens the door and  
I just walk through  
It's out of my hands  
But what can I do  
It's out of my hands  
But what can I do  
Closer to me  
Further than you  
Caught in between  
Things that you do  
Is there any relief for  
The life that you choose  
And I got no belief for  
The things that you do  
All the things that you do  
Touching long on my fuse  
She's alight  
She's star bright  
She opens her eyes  
And the stars shine above  
She falls to the Earth  
And the Earth falls in love  
She opens the door and  
I just walk through

I just walk through

It's out of my hands  
But what can I do  
It's out of my hands but what can I do  
She opens the door and
