

Faraway

Cast

And the world, it turns
Into the shadows
The sun still burns
So faraway

And the dreams you keep
Until tomorrow
They sometimes feel
You're so faraway

You're so faraway
You're so faraway
You're so faraway

Faraway
Why do I always feel
That everything I need
Just always seems to be so faraway
Faraway
It's all so faraway
Why does it always feel
No matter where I've been
You're so faraway

And it's been so long
Since you've been near
And everyone
Is so faraway

And the words you say
Like distant raindrops
Fell to well
So faraway

You're so faraway
You're so faraway
You're so faraway

Faraway
Why do I always feel
That everything I need
Just always seems to be so faraway
Faraway
It's all so faraway
Why does it always feel
No matter where I've been
You're so faraway

People do
What they always do
They don't wanna wait until tomorrow
If there's something that they need today

People say
What they long to hear
But they don't wanna listen to the voices
That are crying out to be heard

To be heard
To be heard

You're so faraway
You're so faraway
You're so faraway
You're so faraway

You're so faraway
You're so faraway
You're so faraway
So faraway

So faraway
So faraway
So faraway
You're so faraway
