

# First Smile Ever

## Cast

Take a look outside my window  
Tell me what do you see  
Just a world that feels so heartless  
And it's saying it's back on you and me

Why some days do I feel worthless  
I'm running round on empty dreams  
What's the use you say it's pointless  
Now I know just what you mean

You walk out the door each day feels the same  
You've been running round the same old ground  
Again and again  
And some things in life are destined to change  
And for the first time in forever  
You got a smile on your face

Like a shipwreck soul is stranded  
On an island far away  
Keep your eyes on the horizon  
In case a ship may pass your way

As I walk the streets of this town  
The empty shops and the arcades  
The last chance to believe has closed down  
It's like it's back to move the way  
Now let me hear you say

You walk out the door each day feels the same  
You've been running round the same old ground  
Again and again  
And some things in life are destined to change  
And for the first time in forever  
You got a smile on your face

You walk out the door each day feels the same  
You've been running round the same old ground  
Again and again  
And some things in life are destined to change  
And for the first time in forever  
You got a smile on your face

When you walk out the door and each day feels the same  
You've been running round the same old ground  
Again and again  
But some things in life are destined to change  
And for the first time in forever  
You got a smile on your face

You got a smile on your face once again  
You got a smile on your face once again  
You got a smile on your face once again  
And there's a smile on your face once again  
You got a smile on your face once again  
You got a smile on your face once again
