

Heal Me

Cast

I fly through the dark night
And I reach for some sunlight
And I'm locked in the distance
A shackled existence
A shackled existence

Nobody can touch me
No shadow come near
And I hold no allegiance
Except with my fear
Accepted my fear

When the truth is a by-product
It offers no meaning
Too nervous to speak it
Too scared to believe in
So I find confrontation
When no one is near
When no one is near
When no one is near
When no one is near
