

Keep It Alive

Cast

I feel I can relax again
Since my intuition has got me to where I've been again
In the right position
So as I may see again
But now
I'm keeping myself above ground again
And though its driving me out of my mind
I'm just keeping my dreams alive
Keep it keep it alive
Keep it keep it alive
I feel I can look up again
Since my indecision has finally left my side again
And all my old ambition
I finally realised again
But now
I'm keeping myself above ground again
And though its driving me out of my mind
I'm just keeping my dreams alive
Keep it keep it alive
Keep it keep it alive
And though its driving me out of my mind
I'm just keeping my dreams alive
Keep it keep it alive
Keep it keep it alive
Keep it keep it alive
I feel I can relax again
Since my intuition has got me to where I've been again
In the right position
So as I may see again
But now
I'm keeping myself above ground again
And though its driving me out of my mind
I'm just keeping my dreams alive
Keep it, keep it alive, keep it alive
Keep it keep it alive
Keep it keep it alive
Keep it keep it alive
Keep it keep it alive
Keep it keep it alive
