

Look Around

Cast

Looking round, looking round, looking round
I can't see, what is left to find
Looking down, looking down, looking down
Show me with my own two eyes
Show me that there's, there's nothing left behind

A faded picture by my side
No feelings left
I'm burnt inside

Is this how it feels to be hurt by the one you love?
Is this how it feels to be hurt by the one you love?

Looking round, looking round, looking round
Tell me, what do you feel inside?
Show me
Looking down, looking down, looking down
I'll show you that there's nothing left to see
That's because you took everything from me

A faded picture on my wall
No feelings left inside at all

Is this how it feels to be hurt by the one you love?
Is this how it feels to be hurt by the one you love?

Treacherous waters, take me down to the sea where love sails
And the sirens calling, hear the song that they sing
Turns the tide on, which brings me to love

Is this how it feels to be hurt by the one you love?
Is this how it feels when you've lost everything you love?
Is this how it feels to be hurt by the one you love?
Is this how it feels to be hurt by the one you love?
