

Silver and Gold

Cast

I love you deep in my heart
I know that it's true, I've always loved you
When love first spoke, well I knew from the start
There was nothing to say to ever keep us apart
Keep us apart

When the money has gone
And there's no silver, no gold

Waters weep when rivers do part
No oceans as deep as the depth of my heart
The depth of my heart
I love you deep in my soul
The treasures you seek are forever to hold
Forever to hold

When the money has gone
And there's no silver, no gold

Yeah but how long do the words take
How long, how long
Just to leave her lips and for her just to say
How long, how long
Yeah but how long before the mask falls
How long, how long
And the gift love gave fell from her Trojan horse
How long, how long

When the money has gone
And there's no silver, no gold

Yeah but how long does the word take
How long, how long
And just how long now don't you hesitate
How long, how long
Now just how long before you realise
How long, how long
It only takes one spark to set this world alight
How long, how long
