

## Time Is Like a River

Cast

I found out  
Yesterday has been and gone  
And I'm a fool for trying to keep tight hold of it  
Life seems so cruel  
When it leads you to believe  
That you can turn back time and try and fix it

Because time is like a river  
It floats out to the sea  
Reaching on forever endlessly  
All our lives together  
Just turning in the deep  
Washing over you and over me  
Washing over you and over me

Don't be misled  
A broken promise can't be kept  
Some things are better left unsaid and locked away  
Don't you know  
Solitude's the only place  
That I can find to hide away my feelings

Because time is like a river  
It floats out to the sea  
Reaching on forever endlessly  
And all our lives together  
Just turning in the deep  
Washing over you and over me  
Washing over you and over me

Because time is like a river  
It floats out to the sea  
Reaching on forever endlessly  
And all our lives together  
Are just turning in the deep  
Washing over you and over me  
Washing over you and over me  
Over me, over me  
Over me, over me
