

# **Sway**

**Castanets**

Your legs (?)  
Your legs (?)  
And rain, running down your flesh (?)  
Like an (?)  
It's like an (?)  
Say something dangerous,  
something sweet  
Put your body against my body.  
Sway, sway, sway.  
Leave your body on my body  
to stay

Lay down sweating first,  
roll around sweating first,  
The insects and the animals  
surround us

Walk down the easiest road,  
the refuge of the easiest road.  
The afternoon  
and the evening hours,  
the easiest road.

Lay your body across my body  
Fade, fade, fade  
into the easiest (?)  
the longest day.
