

## Learnt To Love Goodbyes

Cat Burns

I read the stories, seen the films I know it all  
Better to lose a love then never love at all  
But growing up the hurt was all I ever saw  
You say you're different, you won't leave me, I've heard it before  
Everyone's different till I show every one of my flaws  
I don't expect you to pick me up everytime I fall

People coming and going but they never stay  
There's always a reason the cab's five minutes away  
No need to act like you won't do the same

I've learnt to love goodbyes  
I'm so used to people leaving I don't cry  
I've learnt to love goodbyes  
So if you're going you don't need to tell me why  
I've learnt to love goodbyes

You're picture perfect on paper, just what I'm looking for  
Someone I'd show to my sister and know that she'd adore  
But I'm scared of commitment, my head and heart's at war  
People coming and going but they never stay  
There's always a reason the cab's five minutes away  
No need to act like you won't do the same

I've learnt to love goodbyes  
So used to people leaving I don't cry  
I've learnt to love goodbyes  
If you're going you don't need to tell me why  
I've learnt to love goodbyes

I've learnt to love goodbyes
