

# Sober

Cat Burns

It's late at night  
I'm in my bed  
Trying close my eyes  
But then I get two texts from you  
And I already already know what you're gonna say  
Already already know what you're gonna say

Babe are you awake  
Cus I can't get to sleep  
Feel some kind of way  
Need you hear with me, next to me

You never call me when your sober  
When there no alcohol in your system  
Making decisions  
Why don't you text me in the daytime  
Take a genuine interest in my life  
So no matter what we are it's over  
You never call me when your sober  
You never call me when your sober  
Call me when your sober

Me and you could work so well  
But if I text you in the daytime  
You only read you never reply  
Baby boy tell me why  
You only want me for my body  
Don't wanna get to know me  
Don't wanna get to know me

Babe are you awake  
Cus I can't get to sleep  
Feel some kind of way  
Need you hear with me, next to me

You never call me when your sober  
When there no alcohol in your system  
Making decisions  
Why don't you text me in the daytime  
Take a genuine interest in my life  
So no matter what we are it's over  
You never call me when your sober  
You never call me when your sober  
Call me when your sober

I just want to move move on  
Don't need you in my phone  
Why can't you just let it go and  
Move on

I just want to move move on  
Don't need you in my phone  
Why can't you just let it go and  
Move on

You never call me when your sober  
When there no alcohol in your system

Making decisions  
Why don't you text me in the daytime  
Take a genuine interest in my life  
So no matter what we are it's over  
You never call me when your sober

Why don't you call me when your sober  
When there no alcohol in your system  
Making decisions  
Why don't you text me in the daytime  
Take a genuine interest in my life  
So no matter what we are it's over  
You never call me when your sober
