

Mighty Peace

Cat Stevens

How I'd love to be a child, with friends spread all around me
Playing games and running wild, with nothing more to do than to
Watch the sun make light, and watch the moon take over
From the day into the night, what mighty peace I'd find

How I'd love to be a cloud, floating high above
All the people rushing 'round, with nothing more to do
And to make the rain come down, and watch the colors change
On the earth to green from brown, what mighty peace I'd find
