

You Are My Sunshine

Cat Stevens

You are my sunshine, my only sunshine
You make me happy when skies are grey
You never know, how much I love you
Please don't take my sunshine away

The other night, as I lay sleeping
I dreamt a light, entered my heart
When I awoke, I was mistaken
Ah, but the curtains were still blown apart

You are my sunshine, my only sunshine
You make me happy when skies are grey
You never know, how much I love you
Please don't take my sunshine away

My mama once told me
What a soul should know
It's about the devil, and I hate him so
He'll be crying, if we don't frown
And keep on smiling
He'll stop hanging around

You are my sunshine, my only sunshine
You make me happy when skies are grey
You never know, how much I love you
Please don't take my sunshine away
