

# The Day When the Sun Faded Away

Catamenia

All I see is shadows and night  
Four seasons turn into one  
It's a cold and dark time  
Fear graps a hold of me

The whispers in my ears  
They are getting stronger all the time  
Moment by moment til end  
All sources of light has gone

The last sunset is near  
The sky is so dark and clear  
It's time to end it all  
I'll do it all by my own

The day when the sun fade away  
The day when all light is gone away

All I feel is emptiness and fear  
I?m fumbling in dark without a guide  
There?s no turning back, no return.  
My soul is in forever burn

The last sunset is near  
The sky is so dark and clear  
It's time to end it all  
I'll do it all by my own

The day when the sun fade away  
The day when all light is gone away

All I see is shadows and night  
Four seasons turn into one  
It's a cold and dark time  
Fear graps a hold of me

All I know is I am dead  
All is done, all is said  
No more life in me  
Just leave and let me be

The last sunset is near  
The sky is so dark and clear  
It's time to end, to end it all  
I'll do it all by my own

The day when the sun fade away  
The day when all light is gone away
