## **Dazed, Beautiful And Bruised**

Catatonia

I've got my work cut out with you You tore bits out of me Your carpet burns and bruises blue Are there for all to see

But I can tell you've been through hell Finally you wear it well It's an accessory It's time to change your uniform And hand it on to me, to me

And I dream one day I'll find
The one who lives inside my mind
They feel the same way too
We've all been used
Dazed, beautiful, and bruised
Dazed, beautiful, and bruised

And blame is not a one way street
The widest avenue
But cause me grief
And my belief is harm will come to you

Between the lines I think you'll find Lessons learned from alleys blind Beauty can turn sour So recognise through all the lies The hero of the hour, the hour

And I dream one day I'll find
The one who lives inside my mind
They feel the same way too
We've all been used
Dazed, beautiful, and bruised

When there's nothing, nothing left to lose Dazed, beautiful, and bruised

Dazed
