

# Blood In The Water

## Catch Your Breath

Broken by design  
(Design... design)  
This world, it feeds on hate  
Reaching out, denied  
(Denied... denied)  
I guess I'll hide my face

Pull me down, you'll never know better  
Social soldier, forever alone

This undertow won't let me go  
Each time I break for the surface  
And down below they cast their stones  
And I can see them circle me like  
Blood... Blood  
Blood in the water  
There's blood... Blood  
Blood in the water  
And I just wanna be myself  
Don't wanna keep sinking further

Blood... Blood... Blood in the water  
There's blood  
Blood... Blood... In the water

Yeah, yeah  
No home... Don't speak up  
(Speak up... Speak up)  
They'll put you in your place  
No mistake is safe  
Yeah... yeah  
You slip up once they won't forget it  
Pull me down, you'll never know better  
Social soldier, forever alone  
Pull me down, you'll never know better  
Social sickness will be your demise

This undertow won't let me go  
Each time I break for the surface  
And down below they cast their stones  
And I can see them circle me like  
Blood... Blood  
Blood in the water  
There's blood... Blood  
Blood in the water  
And I just wanna be myself  
Don't wanna keep sinking further

Blood... Blood... Blood in the water  
There's blood  
Blood... Blood... In the water  
When did we become blood thirsty animals  
Fighting to fit in

I am not your prey  
I am not your prey  
I am not your prey

This undertow won't let me go  
Each time I break for the surface  
And down below they cast their stones  
And I can see them circle me like  
Blood... Blood  
Blood in the water  
There's blood... Blood  
Blood in the water  
And I just wanna be myself  
Don't wanna keep sinking further
