

Cold Light

Catch Your Breath

Try to sober up
But it's hard to settle down
In the middle of a fever dream
Rolling through the mud
In the madness of a crowd
Only morning light could help me see

And now the blood is in the water
And the sharks are swimming round
But the greatest threat's between your teeth

The shit we said in the heat of the moment
Will end in regret but we will only know it
In the cold light of day
In the cold light of day

Trying to escape
Trying to fill the void
Come to terms with what I can't control
Refusing to believe
Anything I cannot see
Has only left me with a god shaped hole

And now the blood is in the water
And the sharks are swimming round
But the greatest threats between your teeth

The shit we said in the heat of the moment
Will end in regret but we will only know it
In the cold light of day
In the cold light of day

The shit we said in the heat of the moment
Will end in regret but we will only know it
In the cold light of day
In the cold light of day
