

Business

Catfish And The Bottlemen

I wanna love you
But I've no time for your friends
They can fuckin' do one
I've had a rough night
Let's get drunk in your bedroom
And have a smoke in your window
Until you're urging I tear off your clothes

And all I wanna know is just how far you wanna go
I wanna make you my business
I wanna tolerate drunk you honey
I wanna make it my problem

Listen I know that you said you'd be sleepin'
Babe it's been a rough night
Narcissistic but fuck it I'm callin'
I need to know you're alright

You see now I've found a lover
Who can be at peace with my mother
And I ain't ever lettin' her go

And all I wanna know is just how far you wanna go
I wanna make you my business
I wanna tolerate drunk you honey
I wanna make it my problem

I wanna make you my business
I wanna recognise drunk you honey
I wanna make you my problem
I wanna make you my problem

If you've been having doubts at all
Then you can come and mess my bed up
And I can change your marital status

If you've been having doubts at all
If you've been having doubts at all
If you've been having doubts at all

I wanna make you my business
I wanna tolerate drunk you honey
I wanna make it my problem

I wanna make you my business
I wanna recognise drunk you honey
I wanna make you my problem
I wanna make you my problem

I wanna make you my business
I wanna tolerate drunk you honey
I wanna make you my problem

I wanna make you my business
I wanna recognise drunk you honey
I wanna make you my problem
I wanna make you my problem
