

Cry For Me

Catherine Feeny

Cry a little for me when you hang your head
Why waste your time just feeling sorry for yourself
After all of the pain you caused to somebody else
Yeah, you could cry for me

I have cried for you when it's late at night
And I know that I did not give you all that I could
Yeah, I have cried for you

Smile a little for me when you think of what we had
It ain't no use trying to forget the past
When you could smile for me
I have smiled for you

Die a little each day that you live
Each gift that you give
That you might learn to truly live
You die a little death
