

## Shallow

Catherine Wheel

You're wasting time  
Time to shake in protown ???  
But I can't fight  
You are the one to say goodbye  
And when you shout my mouth is dry  
Only when you try  
Because you're shallow water running high  
You know what's inside

Some righteous sin  
You take my hand between your knees  
And once inside  
I'll only take the things that shine  
You always said those things were mine  
You only said goodbye  
When your shallow water got too high  
You know what's inside

Only when you try  
Because you're shallow water running high  
You know what's inside  
You know what's inside  
You know what's inside
