

Find You Now

Catie Curtis

I just want to walk with you, wander out in the dark with you
To unfamiliar places, through the shadows on our faces
I'm gonna find you now

Follow when the church bells ring, and night falls like an opening
We'll while away the hours, knowing we're not cowards, hiding in our towers
I'm gonna find you now

Did you drop your flowers, underneath the bridge
They're floating on the river, blowing like a kiss

One day I'll stand beside you, freely, never to hide you

Tell me of those days to come, no matter where we came from, everything can be done
I'm gonna find you now

Did you drop your flowers, underneath the bridge
They're floating on the river, blowing like a kiss
And last night I saw your headlights crawl across my bedroom wall and I swear
I could feel you look for me out there
And though I don't know how
I'm gonna find you now
I'm gonna find you now
