

## Got Me Wondering

Catie Curtis

When I was with you, I thought I knew you so well  
Now when I see you, it's like I can't tell  
You from anybody on the street, it's so strange, the way I feel  
Got me wondering if the love was all that real.  
You'd think I'd miss the letters and the conversation  
You'd think I'd miss a good friend, but I don't know if you were  
e one  
Still I liked your style and the way you looked at me  
Got me wondering if the love was all that deep.  
Well, it must have been me, was I a fool or just too young?

Maybe I just wanted to believe I could be in love  
It's like another lifetime, back in those days  
And I don't remember now why I wanted you to stay.  
You moved again, you got a brand new telephone  
I've got the number somewhere, think I'm gonna leave it alone  
'Cause I feel so empty every time I talk to you  
Got me wondering if the love was all that true.
