

One Day

Catie Turner

Sitting on the bathroom floor
Asking me to marry you
Kissing 'cuz you're serious
And I don't have an answer

Kind of glad you didn't order
A diamond ring you can't afford 'cuz
I feel like we're moving forward
Faster than I planned for

Let's take it one day
One day at a time, I wouldn't mind
Letting "someday" stay undefined
'Cuz right now feels right how
How perfectly it's playing out
So why not wait and talk about
"One day" one day

A year ago I lived at home
You played guitar, your hair was long
And I was writing different songs
That I was scared to show you

Now you're looking at the future like we're in control
Baby, I'll be here for what the future holds
We're too young to think we know
The ways we're going to grow up

Let's take it one day
One day at a time, I wouldn't mind
Letting "someday" stay undefined
'Cuz right now feels right how
How perfectly it's playing out
So why not wait and talk about
"One day" one day

Ooh, can you just look me in the eyes
I don't want to lose you
Forever will be there down the line

Let's take it one day
One day at a time, I wouldn't mind
Letting "someday" stay undefined
'Cuz right now feels right how
How perfectly it's playing out
So why not wait and talk about
"One day" one day
"One day" one day
