

Bad Boy

Cats on Trees

I'm in your ear when you dance bad boy
Love it when you move when you dance bad boy
I'm in your ear when you dance bad boy
Love it when you move when you dance bad boy

Come and sit with me until the rising sun
Come closer, give me your hand
Dim the lights you let them out, out, out, out

Come, when my body goes I'll never let you run
Your soul burns into the flames
You were an angel with the face you had
Believe, believe, believe you're bad
Believe, believe, believe

I'm in your ear when you dance bad boy
Love it when you move when you dance bad boy
I'm in your ear when you dance bad boy
Love it when you move when you dance bad boy

I'm in your ear when you dance bad boy
Love it when you move when you dance bad boy
I'm in your ear when you dance bad boy
Love it when you move when you dance bad boy

Come and lay your eyes right here
Till your eyes don't tell me where you've been
The other eyes you see tonight can't wait

Come let tonight become a paradise
Come closer, and give me your hand
I really love when I'm on a drive with you in the flames
Believe, believe, believe you're bad
Believe, believe, believe

I'm in your ear when you dance bad boy
Love it when you move when you dance bad boy
I'm in your ear when you dance bad boy
Love it when you move when you dance bad boy

I'm in your ear when you dance bad boy
I'm in your ear when you dance bad boy

Don't tell me how to live life
Don't touch me wrong, don't touch me wrong
Don't tell me who I've gotta kiss another man working the streets
Your soul is burning in the flames
Don't touch me wrong, don't touch me wrong
And don't tell me to hit my place
Paradise is burned in flames
Believe in something I could die for

I'm in your ear when you dance bad boy
Love it when you move when you dance bad boy
I'm in your ear when you dance bad boy
Love it when you move when you dance bad boy
