

Black Lips

Cats on Trees

When I met you when I met you for the first time
I didn't know how to control control control myself
When I got here when I got here for the first time
You place your hands on me
Magic embraced my body

In the shadows I long to go
You have to tie me up now
In the shadows I long to go
You want to beg me you want to beg me

Black lips black lips forever
Black lips black lips and ever
Come on baby one more time
I wanna give myself to you

Black lips black lips forever
Black lips black lips and ever
Come on baby one more time
My cherry cherry kiss to you
Come on baby one more time
The only thing I want is you

When I lay there when I lay there for the first time
I didn't know how I could enjoy enjoy you touching me
When I begged you for the first time
Diamonds fell to my knees
Magic embraced my body

In the shadows I long to go
You have to tie me up now
In the shadows I long to go
You want to beg me you want to beg me

Black lips black lips forever
Black lips black lips and ever
Come on baby one more time
I wanna give myself to you
Come on baby one more time
The only thing I want is you

The queen is dark behind the scene
Mystery burned kingdom dom

The queen is dark behind the scene
Mystery burned kingdom dom

Black lips black lips forever
Black lips black lips and ever
Come on baby one more time
I wanna give myself to you
Black lips black lips forever
Black lips black lips and ever
Come on baby one more time
My cherry cherry kiss to you
Come on baby one more time
The only thing I want is you
